PAYMENT POLICY INSTRUCTIONS

A payment policy assists in determining provider reimbursement for specific covered services. To receive payment, the provider must be in a contractual relationship with UCare and provide services to a member enrolled in one of UCare’s products. This payment policy is intended to provide a foundation for system configuration, work instructions, call scripts, and provider communications. A payment policy describes the rules for payment, which include applicable fee schedules, additional payment rules by regulatory bodies, and contractual terms. This policy is a general guideline and may be superseded by specific provider contract language.

PAYMENT POLICY OVERVIEW

Adult crisis response services are community-based services provided by a county, tribe, or contracted crisis team to adults age 18 or older. This policy outlines the UCare payment and claim guidelines associated with adult crisis response services.
