Provider Assurance Statement for Telemedicine Required to Deliver Telemedicine Services to Certain UCare Members

UCare providers are required to complete and submit a [Provider Assurance Statement for Telemedicine](#) to UCare before supplying telemedicine services to members enrolled in Minnesota Health Care Programs (MHCP) and Commercial products.

To be eligible for reimbursement for telemedicine services provided to MHCP and Commercial members (see products below), providers must attest that they meet all the requirements outlined in the telemedicine policy in the Claims section of the UCare [Provider Manual](#).

By submitting this form, providers are indicating assurance for telemedicine services provided to members enrolled in the following UCare products: Prepaid Medical Assistance Program (PMAP), MinnesotaCare, Minnesota Senior Health Options (MSHO), Minnesota Senior Care Plus, *UCare Connect* (SNBC), *UCare Connect + Medicare*, *Fairview UCare Choices* and *UCare Choices*. This assurance is not needed for providing telemedicine services to members enrolled in *UCare for Seniors* or *EssentiaCare*.
