UCare to Align Claims Processing with DHS Substance Use Disorder Reform for HF Modifier

On Jan. 1, 2019, as part of the Substance Use Disorder Reform, the Minnesota Department of Human Services (DHS) advised on the use of the HF modifier with code H0001 to distinguish between a Rule 25 Assessment and a Comprehensive Assessment. UCare has aligned its claim system with the DHS reform for Prepaid Medical Assistance Program, MinnesotaCare, UCare Connect, UCare Connect + Medicare, Minnesota Senior Health Options and Minnesota Senior Care Plus plans.

Claims received July 1, 2019, or later are required to have the appropriate modifier if applicable.

- Comprehensive Assessment – H0001
- Rule 25 Assessment – H0001 with HF modifier

UCare will not be adjusting or recouping any past paid claims.
