Coordination of Benefits (COB) Reporting Updated on Remits

After hearing from providers, UCare is pleased to announce an enhancement to our EOPs and 835s. This week, UCare will update the reporting of COB claims on EOPs and 835s.

UCare will now be reporting prior payments/adjustment amounts in the CAS segment with OA (Other Adjustment) 23 (The impact of prior payer(s) adjudication including payment and/or adjustments).

Prior to this change we were using CAS segment with CO (Contractual Obligation).

Example of enhanced EOP:
