### **Notification Requirements Update: Adult Rehabilitative Mental Health Services (ARMHS)**

Effective Aug. 1, 2020, UCare will require a notification requirement within 24 hours of intake for the following adult rehabilitative mental health services:

- H2017 – Basic living and social skills
- 90882 – Environmental or community intervention
- H0031 – Mental health assessment
- H0032 – Mental health services plan development

This change allows UCare to identify and prevent duplication of ARMHS services by more than one provider, which can lead to denial of payment, as well as confusion for the member when there are multiple treatment plans. UCare created an [ARMHS Provider Change Request](#) form to assist members and providers when there will be a change in service providers. Providers and their staff members may find links to forms on [UCare's provider website](#).

A notification requirement does not limit or delay the member and provider's ability to begin or render services. Notification, or prior authorization of services, does not guarantee payment.

To contact the Mental Health and Substance Use Disorder Services team, call 612-676-6533 or 1-833-276-1185 toll free.
