What is the UCare Formulary?

The UCare formulary is a list of generic and brand drugs that are covered by this plan(s). To be covered, the drug must be on our formulary. The most current list of covered drugs can be found on the UCare Individual & Family Plans formulary at **ucare.org**.

To be covered, you must fill your prescription at a network pharmacy. The Provider Directory and Search Network tool at **ucare.org** includes in-network pharmacies. You can also visit **ucare.org** for the most current information.

Over-the-counter (OTC) drugs are usually not covered. They must be prescribed and on our formulary to be covered. This applies to drugs covered as part of the Essential Health Benefits, such as emergency contraception, tobacco cessation and diabetic supplies.

Can the formulary change?

Generally, if you are taking a drug on our formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released by the FDA.

How do I use the formulary?

In the formulary, brand name drugs are capitalized (e.g. DILANTIN) and generic drugs are listed in lowercase italics (e.g. *fenofibrate*). UCare covers both brand name drugs and generic drugs. A generic drug is approved by the U.S. Food and Drug Administration (FDA) as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs, but work just as well and are equally as safe as the brand drug.

How to find prescription drugs in the formulary?

There are two ways to find your prescription drugs in the formulary. You can search by drug category or by alphabetical listing.

Search by Drug Category

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the medical conditions they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents." If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Search by Alphabetical Listing

If you are not sure what class to look under, you can look for your drug in the Index. The Index provides an alphabetical list of all of the drugs included in the formulary. Both brand name and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information within the formulary.

Tiers and limitations for prescription drugs

The numbers in the Tier column on the formulary indicates the cost share for the medication.

Tier 1	Preferred generic drugs that have a Tier 1 copay.
Tier 2	Primarily non-preferred generic drugs that have a Tier 2 copay.
Tier 3	Preferred brand name drugs that have a Tier 3 copay.
Tier 4	Non-preferred drugs that have a Tier 4 copay.
Tier 5	Primarily specialty drugs that have a Tier 5 copay.
PV	Preventive drugs that may be eligible for a zero-dollar copay.
DME	Products covered under the DME (Durable Medical Equipment) benefit.

The abbreviations/symbols in the Limitations (Notes) column on the formulary tell you if UCare has any special requirements or limits on coverage for that drug. Use the key below to help understand the meaning of each abbreviation/symbol.

- **PA = Prior authorization** – Drugs that require you or your provider to get approval from UCare before you fill your prescription in order for UCare to cover the drug.
- **QL = Quantity limits** – There are limits to the amount of drug you can receive each time you fill your prescription.
- **Day Supply Limits** – Certain oral oncology drugs are limited to a 14 or 15-day supply per fill (depending on package size) for the first 90 days of therapy.
- **SP = Specialty drugs** – Fairview Specialty Pharmacy is the only network provider of specialty drugs for UCare plan members. Specialty drugs are injectable or oral drugs that often require special handling or monitoring by a pharmacist or nurse. If you use a specialty drug, you or your doctor must contact the specialty pharmacy to order the prescription. Your drug and any needed supplies will be shipped to your home, work or doctor's office. Fairview also provides clinical support to you and your caregivers. A Fairview pharmacist is on call 24 hours a day if you have an urgent need related to your specialty drug. Call **Fairview Specialty Pharmacy at 1-800-595-7140 (this call is free)**.
TTY users may call the **National Relay Center at 711 and ask for 1-800-595-7140 (this call is free)**.
- **PV =** May be considered a preventive medication with a zero copay.
- **Copay review =** Drugs that require your provider to contact Express Scripts for a copay override in order for the drug to be covered with a zero dollar copay.
- **\$25 insulin =** You will pay no more than \$25 for a 30-day supply of insulin on the formulary (applies to copay plans and HSA plans).
- **\$25 diabetes drug =** You will pay no more than \$25 for a 30-day supply of these diabetes drugs (applies to copay plans only and not HSA plans).

Eligible Preventive Medication with no Copay	
Aspirin For prevention or cardiovascular events and colorectal cancer	Men: 45 to 79 years old Women: 55 to 79 years old

Oral Fluoride	Children ages 6 months to 6 years
Folic Acid	Women under 51 years old
Immunizations	Recommended ages per the Advisory Committee on Immunization Practices
Tobacco Cessation	Men and women age 18 and older who use tobacco products. Prescription products have \$0 copay in pharmacy. OTC products available through smoking cessation program.
Bowel Preps	Men and women between the ages of 45 and 75 - limit 2 per 365 days
Breast Cancer Prevention	High risk women age 35 and older with no previous diagnosis of breast cancer and are at increased risk for breast cancer. Prescriber must contact Express Scripts for review/copay override.
Contraceptives	Prescriber must call Express Scripts for review/copay override for select products.
Statins Low-to Moderate-Dose Statins	Adults 40 -75 years
HIV Prevention	All FDA-approved drugs for pre-exposure prophylaxis (PrEP) for HIV negative individuals. Prescriber must call Express Scripts for review/copay override.

What if my drug is not on the formulary?

If your drug is not included in this formulary, you should first contact UCare Customer Service and confirm that your drug is not covered. If you learn that UCare does not cover your drug, you can:

- Ask your doctor to prescribe a similar drug that is covered by UCare.
- Ask UCare to make an exception to cover your drug.

Requesting a formulary or drug restriction exception

You or your doctor can ask UCare to make an exception and cover a non-formulary drug, drug restrictions, or limits. For help requesting an exception, call Customer Service at the number on the front cover. Or log in to your UCare member account and complete the Exception Request form.

Your doctor must submit a statement supporting the request. If your request is approved, the drug will be covered at the copay or coinsurance amount, based on the drug's level or tier in the plan formulary. Exception requests for lower cost sharing amounts for drugs on a higher tier will not be granted.

For more information

For more detailed information about your UCare prescription drug coverage, please review your *Member Contract* and other plan materials.

If you have questions, please call the UCare Customer Service number on the front cover or visit **ucare.org**.
