You will get the most coverage by using a network dentist. UCare Medicare, UCare Medicare with M Health Fairview & North Memorial and EssentiaCare Plans use the Delta Dental National Medicare Advantage Network administered by Delta Dental of Minnesota (Delta Dental). You can find a list of network providers online at ucare.org/dental, or you can call the number on the front page for assistance.

Unlike most other dental plans, these plans include out-of-network coverage. If you receive services from an out-of-network licensed dental provider, for most plans, you will be responsible for submitting your bills and paying the cost share and any difference between the actual billed charge and the Delta Dental dental fee schedule. If you have a plan with a dental allowance, you can use your allowance dollars at both in and out-of-network dental providers, however, you get the best value at in-network providers.

Out-of-network/non-contracted providers are under no obligation to treat UCare or EssentiaCare members, except in emergency situations. For a decision about whether we will cover an out-of-network service, you or your

provider can ask us for a pre-service organization determination. Please call our Customer Service number or see your Evidence of Coverage for more information.

Benefits, provider network, premium, deductible and/or copayments/coinsurance may change on January 1 of each year. Limitations, copayments and restrictions may apply.
